

## PAR36SPOTBANKS

Commonly known as 'audience blinders', Spot Banks are available in various configurations for Par 36 lamps. Designed with ease of use in mind, they feature robust lightweight aluminium construction, semi-gloss black electrostatic paint finish, heavy duty yoke with positive lock off, using a tee bar to enable unit to be set at any desired angle. In addition, each lamp bank will pan independently to alter light effect. Lamp change itself is simplicity due to quick release knobs on lamp retaining ring which are chrome plated and are fitted with a safety mesh as standard. Certain models of the spot banks can be supplied with stand off colour frame, with 2 or 4 way barn doors incorporating colour frame, supplied at extra cost. The units can be supplied wired or unwired which must be stated when ordering.
